

Friends:

Daily Spending Limit Change \$100 to \$150 ... list of items that have limits on # purchased

Due to the amounts of Fresh Beef/Pork/Chicken items on-hand right now I made a decision this morning to raise the spending limits for retirees from \$100 to \$150, Active duty remains the same.

Store orders are projected 11-14 day out on these items. As a steward of appropriated funds Management must ensure these perishable items are sold prior to expiration dates and the store has enough room in their backup storage areas to receive incoming shipments.

High demand items already with limits will not change.
